- ✓ Chest X-ray
- ✓ Diabetic Counselling
- ✓ Doctor Consultation

Add-on **RM 150** for Hormone Profile

- ✓ Follicle-Stimulating Hormone (FSH)
- ✓ Luteinizing Hormone (LH)
- ✓ Prolactin
- ✓ Estradiol

RM 529

From the CEO's Desk

Reflecting on the past year, I'm deeply moved by the work we've done together at the Maaedicare Charitable Foundation. We remain committed to being a source of hope, driven by the belief that everyone deserves access to quality healthcare. Our purpose goes beyond simply providing services; it's about reaching out to those who often go unseen and unheard, ensuring that the most vulnerable among us receive the care and support they need.

Despite challenges like rising healthcare costs and funding constraints, we have made remarkable progress. Our expansion of free clinics into densely populated areas has provided vital daily care to more than 2,000 individuals who otherwise lack access to basic healthcare. These clinics, alongside our life-preserving dialysis treatments, advanced cardiac diagnostics, and preventative care initiatives, empower individuals to lead healthier lives.

We had celebrated 30 years of impactful service with the Health for Humanity Fundraiser Ball 2024, which was a resounding success. The funds raised will enhance kidney care at our dialysis centers, strengthen cardiac diagnostics, and expand our free clinic network, reaching even more underserved communities.

Our progress is driven by the dedication of our team, the support of our Board of Trustees, and the generosity of donors who share our vision. Partnerships with notable organizations further enable us to bridge healthcare gaps and serve those in need.

Looking ahead, we remain committed to expanding our reach and impact. Together, with your continued support, we are not just providing healthcare but restoring hope and rebuilding lives.

Thank you for being an integral part of this journey as we work toward a healthier and more equitable future for all.

MS. ANNE RAJASAIKARAN
CHIEF EXECUTIVE OFFICER
MAAEDICARE CHARITABLE FOUNDATION

(Full Blood Count, Urine FEME, Kidney Profile, Liver Profile, Blood Sugar, Cholesterol Profile, Blood Group, Hepatitis B Screening, Inflammation Markers, Cancer Markers, Thyroid)
- ✓ Chest X-Ray with radiologist reporting
- ✓ ECG
- ✓ Doctor Consultation

Meet Our Patients

Puan Azizah who lives in Taman Nusa Bestari, has been a patient at JB Lions - Maaedicare for 20 years, making her a valued member of our dialysis community. Located just a short distance from her home, our center's convenience has been a significant factor in her long-term care. Azizah highly values the supportive and welcoming environment at JB Lions - Maaedicare, finding her dialysis sessions to be generally calm and relaxing. She appreciates the staff's attentiveness and the health education they generously provide. Azizah's story underscores the importance of patient-centered care, a comfortable environment, and a dedicated team in ensuring positive dialysis experiences - what Maaedicare does best!

- PUAN AZIZAH BINTI IBRAHIM, 62

Madam Chan Kam Yeong, a vibrant 70-year-old resident of Teluk Intan, Perak, has been undergoing dialysis at Maaedicare Teluk Intan since 2019. Prior to starting dialysis, Madam Chan faced health challenges related to high blood pressure. She chose Maaedicare Teluk Intan for its hospitable atmosphere, noting the friendly and supportive nursing staff and the clean and comfortable environment. As a cash patient without any sponsors, Madam Chan's daughter uses her government education claims to assist with the costs of treatment. Currently, Madam Chan undergoes dialysis three times a week, with her children providing her transportation. She is actively exploring independent transportation options to reduce reliance on family members.

- MADAM CHAN KAM YEONG, 70

Health for Humanity Fundraiser Ball

The Maaedicare Charitable Foundation celebrated its Pearl Anniversary—marking 30 years of dedicated public service—with the Health for Humanity Fundraiser Ball 2024 in July.

Over 400 guests, dressed to the nines, attended the glamorous event at the JW Marriott Hotel in Kuala Lumpur, which was graced by **Her Highness Dato' Seri DiRaja Tan Sri Tunku Puteri Intan Safinaz as Guest of Honor**. Maaedicare **Chairman Y.M. Tunku Dato' Yaacob Khyra**, the Board of Trustees, and other dignitaries were also in attendance, demonstrating strong support for the Foundation's mission.

The evening featured a Silent Auction and raised RM500,000 in cash and in-kind donations to support vital healthcare programs, including expanding kidney care across 11 dialysis centres, enhancing heart health diagnostics at the Cardiac Diagnostic Centre, and providing free medical screenings through Klinik Amal Percuma to underserved communities.

Ms. Anne Rajasaikaran, Chief Executive Officer of Maaedicare Charitable Foundation and Chairperson for the fundraiser, expressed pride in three decades of service to underprivileged Malaysians. She emphasized that the Foundation's mission is to make healthcare accessible and affordable for all, and called on the public to support Maaedicare's efforts through donations, volunteering, or partnerships—stressing that such contributions are crucial for improving lives and ensuring continued access to essential medical care.

The fundraiser was both a celebration of past achievements and a renewed commitment to bridging healthcare gaps and uplifting communities across Malaysia.

THANK YOU to everyone who made this fundraiser a huge success!

Heart SCREENING

- ✓ CT Coronary Angiogram
- ✓ Cardiologist Consultation

WHY YOUR DONATION MATTERS

Affordable Dialysis

Each year, the Maaedicare Charitable Foundation proudly supports over 700 patients every month at its 11 Charity Dialysis Centers across the country. A significant portion of our patients—about 70%—live on monthly household incomes below RM3,000 and rely on our centers for their daily dialysis sessions.

Health and Heart Screening

Through our Cardiac Diagnostic Center, we have been able to identify early signs of heart disease and promote better overall health. Since 2018, more than 4,000 patients have benefited from our services, allowing them to take proactive steps toward a healthier future.

Free Medical Care

Our 2 Klinik Amal Percuma offer free medical services to those in need in Kuala Lumpur and Ipoh. Many of our patients come to us unable to afford medication or even a basic doctor's visit for their health issues. Since we started this initiative in 2022, we have been able to help over 2,000 individuals, ensuring they receive the care and support they deserve.

Community Health Education

Our teams are genuinely passionate about promoting health education. They work hard to provide health checks and screenings at community centers and through collaborative partnerships, ensuring that everyone has access to important health information and resources.

Patient Welfare Management

Our patients receive exceptional care from our dedicated teams across the country. In addition to subsidized dialysis treatment, we offer guidance on kidney health and provide essential support like monthly grocery deliveries, medication supplies, and transportation assistance. When needed, we even make house visits to ensure that our patients have everything they need for their well-being.

Children's Educational Tools

Maaedicare takes pride in its commitment to supporting the children of low-income dialysis patients by providing annual educational tools and assistance. To date, this initiative has positively impacted the lives of over 2,584 children, helping them access vital resources and opportunities for their education.

INITIATIVES

Collaborating with partners such as Rotary Malaysia, the Budimas Charitable Foundation, the Malaysian Red Crescent, the Malaysian Association for the Blind, and government agencies, the Maaedicare Charitable Foundation focuses on improving healthcare access for vulnerable groups, through medical screenings and outreach programs.

Our main efforts involve fundraising and securing donated essential resources such as dialysis machines.

In addition to medical services support, the Foundation assists kidney patients and promotes proactive health awareness, collaborating and participating in community events to reduce healthcare disparities and ensure comprehensive care.
